

PANYAM VARA PRASAD

SENIOR SOFTWARE DEVELOPER

Node.js | NestJS | TypeScript | Java Script | AWS Serverless | 7013402422 • helloprasad88@gmail.com

PROFESSIONAL SUMMARY

Senior Software Developer with 9+ years of IT experience, including 6+ years of hands-on backend development using Node.js, JavaScript, NestJS and AWS serverless services. Experienced in designing RESTful APIs, serverless architectures and cloud integrations using AWS Lambda, API Gateway and DynamoDB. Strong experience in API validation, exception handling, debugging, monitoring, code optimization, unit testing and production support. Experienced in Agile/Scrum environments using Git, CI/CD and JIRA.

TECHNICAL SKILLS

Backend	Node.js, NestJS, TypeScript, JavaScript (ES6+), REST APIs, JSON, Microservices
AWS / Cloud	AWS Lambda, API Gateway, DynamoDB, S3, SQS, SNS, CloudFormation, CloudWatch
Databases	DynamoDB, MySQL
DevOps / Tools	Terraform, Serverless Framework, Git, CI/CD, JIRA, VS Code
Testing	Mocha, Chai, Unit Testing, API Validation
Frontend	Angular, TypeScript, HTML5, CSS3

PROFESSIONAL EXPERIENCE

CAREATOR TECHNOLOGIES PVT. LTD. | Senior Developer | Oct 2025 – Present

Project: Insurance & Money Services (IMS) | Client: Tesco Technologies Pvt. Ltd.

Technologies: Node.js, NestJS, TypeScript, JavaScript, AWS Lambda, API Gateway, SOAP Services, Terraform, JSON, Git, JIRA

- Contributed to migration of an enterprise application from Tesco Bank to the Tesco IMS platform.
- Supported platform modernization and business continuity initiatives.
- Developed and enhanced backend services using NestJS, TypeScript and AWS services.
- Integrated internal systems through REST APIs and supported secure, scalable service communication.
- Implemented API validation, input validation and exception handling.
- Improved application observability through structured logging, monitoring and error handling.
- Supported CI/CD automation, code-quality improvements and production issue resolution within Agile delivery.
- Used Git for version control and JIRA for sprint and task management.

HYNIVA CONSULTING SERVICES PVT. LTD. | Senior Developer | Apr 2017 – Sep 2025

Project: Victory Capital Management (VCM)

Project Duration: 2022 – Sep 2025

Technologies: Node.js, JavaScript, AWS Lambda, API Gateway, DynamoDB, JSON, Serverless Framework, Microservices, Mocha, Chai, Git, JIRA

- Built secure and scalable RESTful APIs using Node.js and JavaScript.
- Designed serverless backend architecture using AWS Lambda and API Gateway.
- Worked with DynamoDB for scalable application data management.
- Implemented serverless services using Serverless Framework and microservices design principles.
- Developed unit tests using Mocha and Chai and supported code-quality improvements.
- Monitored applications using AWS CloudWatch and supported Git-based deployments.
- Participated in Agile sprint planning, defect resolution and JIRA-based issue tracking.

PROFESSIONAL EXPERIENCE – ADDITIONAL PROJECTS

HYNIVA CONSULTING SERVICES PVT. LTD. | Software Engineer / Developer | Apr 2017 – Sep 2025

Veteran Loan Fund (VLF) | 2021 – 2022

Technologies: Node.js, JavaScript, AWS Lambda, API Gateway, DynamoDB, Angular, TypeScript

- Developed core backend logic and REST API services using Node.js and JavaScript.
- Implemented AWS Lambda functions and API Gateway endpoints for business operations.
- Integrated DynamoDB and PostgreSQL for hybrid data requirements.
- Contributed to Angular/TypeScript components during the earlier project lifecycle.

PFC (People Fund Connect) | 2020 – 2021

Technologies: Node.js, JavaScript, AWS Lambda, API Gateway, Angular

- Designed Node.js APIs and supported backend integrations with AWS services.
- Developed, deployed and maintained Lambda-based backend services.
- Collaborated with frontend developers and contributed to Angular UI modules when required.

Tresl | 2018 – 2020

Technologies: Node.js, JavaScript, REST APIs, PostgreSQL, Angular, TypeScript

- Developed and maintained **Angular-based web application features** using TypeScript, HTML5 and CSS3.
- Built reusable Angular components and implemented application functionality based on business requirements.
- Integrated Angular frontend applications with backend services through **RESTful APIs**.
- Developed backend services and APIs using **Node.js and JavaScript** to support application workflows.
- Implemented data flow between frontend and backend and handled API responses and application-level validations.

EDUCATION

- Master of Computer Applications (MCA) — Annamacharya Institute of Technology and Sciences, Rajampet — 2012
- B.Sc. — Government Degree College, affiliated with Sri Venkateswara University, Tirupati — 2009

CORE PROFESSIONAL STRENGTHS

- Backend API development and serverless application design
- AWS cloud integration and scalable backend architecture
- Debugging, production support and issue resolution
- API validation, exception handling and application observability
- Agile/Scrum collaboration, Git workflows and JIRA-based delivery
- Code quality, unit testing and maintainable software development
